Course content

Why attend

Construction projects involve large budgets, complex contracts and many opportunities for overruns and fraud. This course covers auditing construction projects: project governance, procurement and tendering, contract administration, progress and payment certification, variations and claims, quality and close-out.

Independent project audits can save significant sums. You will learn where construction projects lose money and how to audit them.

Professional Problems This Course Is Designed to Solve

- Difficulty translating subject knowledge into practical workplace decisions.
- Inconsistent approaches to the activities covered in the course outline.
- Lack of a structured plan for applying and reviewing new skills.

Course methodology

Case studies of troubled projects, document review exercises, payment testing and site audit planning.

Course objectives

By the end of this course, participants will be able to:

- Understand construction project risks
- Audit project governance and reporting
- Review procurement and contract award
- Test progress valuations and payments
- Audit variations and claims
- Review quality and project close-out

Target audience

This course is suitable for:

- Internal auditors
- Project auditors
- Quantity surveyors
- Project control professionals
- Audit managers

Course content

Target competencies

Participants will develop competencies in:

- Project risk assessment
- Contract review
- Payment testing
- Claims analysis
- Close-out review

Course outline
