Why attend

Health and safety failures can cause serious harm and liability. This course covers auditing health and safety management systems: legal compliance, policy and leadership, risk assessment, controls and permits, contractor management, training, incident investigation and performance monitoring.

Audits help organisations find safety weaknesses before accidents happen. You will learn a structured approach to safety auditing.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Site audit planning, document review, interview practice and case studies of incidents.

Course objectives

By the end of this course, participants will be able to:
• Understand health and safety legal requirements
• Audit safety policy and leadership
• Review risk assessments and controls
• Assess contractor safety management
• Evaluate training and competence
• Audit incident investigation and performance
