Course content

Why attend

HR technology now covers core HR records, recruitment, learning, performance, payroll and employee self-service. This course helps HR leaders plan digital HR: defining requirements, comparing system options, running vendor selection, planning implementation and data migration, and driving adoption.

HR system projects often over-run and under-deliver. You will learn to select and implement technology that truly improves HR services.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Requirements workshops, vendor demonstration scoring, case studies and implementation planning.

Course objectives

By the end of this course, participants will be able to:
• Map the HR technology landscape
• Define HR system requirements
• Run a structured vendor selection
• Plan implementation and data migration
• Drive adoption among employees and managers
• Measure the value of HR technology

Target audience

This course is suitable for:
• HR directors and managers
• HRIS professionals
• HR transformation leads
• IT business partners
• Payroll managers

Course content

Target competencies

Participants will develop competencies in:

- Requirements definition
- Vendor evaluation
- Implementation planning
- Adoption
- Value measurement
