Why attend

Medical emergencies at workplaces, events and remote sites require quick, coordinated action. This course covers emergency medical response coordination: medical risk assessment, first aid provision, medical emergency plans, communication with ambulance services, mass casualty triage principles, remote site medical support and post-incident care.

Fast, coordinated response greatly improves outcomes in medical emergencies. You will learn to plan and coordinate medical response.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Medical scenario exercises, plan development, triage simulations and case studies.

Course objectives

By the end of this course, participants will be able to:
• Assess medical risks and first aid needs
• Plan first aid and medical provision
• Develop medical emergency response plans
• Coordinate with ambulance and hospital services
• Apply mass casualty triage principles
• Arrange remote site medical support and aftercare
