Why attend

Enterprise architecture aligns business strategy, processes, information and technology. This course explains EA concepts, frameworks, business capability mapping, application and data architecture, technology roadmaps, governance and the role of architects in digital transformation.

Without architecture, organisations accumulate fragmented systems and duplicated investments. This course gives you a practical foundation to plan coherent business and technology change.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course uses capability mapping workshops, framework comparisons, case studies and roadmap exercises.

Course objectives

By the end of this course, participants will be able to:
• Explain enterprise architecture concepts and value
• Compare common EA frameworks
• Build business capability maps
• Analyse application, data and technology landscapes
• Develop architecture roadmaps
• Establish architecture governance

Target audience

This course is suitable for:
• Enterprise and solution architects
• IT managers
• Business analysts
• Digital transformation professionals
• Strategy professionals

Course content

Target competencies

Participants will develop competencies in:

- Capability mapping
- Architecture frameworks
- Application portfolio analysis
