Why attend

Simple problem-solving tools, used well, solve most everyday quality and operational problems. This practical course teaches fishbone diagrams, 5 Whys and Pareto analysis in depth, plus check sheets and run charts, through hands-on practice with real workplace problems.

Basic tools are often used superficially. You will learn to apply them properly and reach real root causes.

Professional Problems This Course Is Designed to Solve

- Difficulty translating subject knowledge into practical workplace decisions.
- Inconsistent approaches to the activities covered in the course outline.
- Lack of a structured plan for applying and reviewing new skills.

Course methodology

Hands-on tool practice, team problem-solving sessions, case studies and peer review.

Course objectives

By the end of this course, participants will be able to:

- Collect data with check sheets
- Prioritise problems with Pareto analysis
- Explore causes with fishbone diagrams
- Drill to root causes with 5 Whys
- Track results with run charts
- Combine tools in a simple problem-solving process

Target audience

This course is suitable for:

- Team leaders and supervisors
- Quality and process staff
- Front-line employees
- Engineers
- Service managers

Course content

Target competencies

Participants will develop competencies in:

- Data collection
- Prioritisation
- Cause analysis
- Root cause identification
- Result tracking
