Why attend

Hazard Analysis and Critical Control Points is the foundation of food safety management worldwide. This course covers HACCP planning: prerequisite programmes, forming the HACCP team, product description and flow diagrams, hazard analysis, critical control points, critical limits, monitoring, corrective actions, verification and records.

A sound HACCP plan protects consumers and the business. You will learn to develop and maintain an effective plan.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

HACCP plan development exercises, hazard analysis workshops, case studies of food incidents and verification practice.
