Why attend

Healthcare organisations face rising demand, workforce shortages, financial pressure and high expectations for quality and patient safety. This course equips clinical and non-clinical managers with leadership and management skills tailored to healthcare settings. Topics include healthcare systems and strategy, leading multidisciplinary teams, quality and patient safety, operational and financial management, workforce wellbeing and leading change in complex care environments.

Healthcare leaders must balance clinical quality, patient experience, staff wellbeing and limited resources. This course gives you practical frameworks and tools to lead effectively in this demanding environment.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course uses healthcare case studies, team exercises, quality improvement tools, financial scenarios and peer discussion between clinical and administrative participants.

Course objectives

By the end of this course, participants will be able to:
• Understand healthcare system structures and strategic challenges
• Lead multidisciplinary clinical and non-clinical teams
• Apply quality improvement and patient safety principles
• Manage operations, capacity and patient flow
• Understand healthcare finance and resource allocation
• Lead change while supporting staff wellbeing

Target audience

This course is suitable for:
• Hospital and clinic managers
• Clinical leaders such as head nurses and medical directors
• Healthcare administrators
• Quality and patient safety managers
• Professionals moving into healthcare management

Course content

Target competencies

Participants will develop competencies in:

- Healthcare leadership
- Multidisciplinary team management
- Patient safety
- Patient flow management
