Why attend

Maintenance supervisors balance urgent breakdowns, planned work, safety and team management every day. This course develops supervisory skills: maintenance strategies, planning and scheduling coordination, managing technicians, safety leadership, work quality, cost control, KPIs and continuous improvement.

Supervisors determine how well maintenance plans are executed. You will learn practical management skills for maintenance teams.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Supervisory scenarios, planning exercises, role plays and case studies.

Course objectives

By the end of this course, participants will be able to:
• Understand maintenance strategies and the supervisor's role
• Coordinate planning, scheduling and execution
• Lead and develop maintenance technicians
• Lead safety on the job
