Course content

Why attend

Physical security protects people, assets and information from theft, intrusion and violence. This course covers physical security management: security strategy and policy, layered protection, access control, CCTV, alarms, guarding services, visitor and contractor management, incident response and measuring security performance.

Effective physical security balances protection, cost and convenience. You will learn to manage security programmes professionally.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Layered security design exercises, technology demonstrations, guard service management case studies and planning workshops.

Course objectives

By the end of this course, participants will be able to:
• Develop physical security strategy and policy
• Apply layered protection principles
• Manage access control and visitor processes
• Oversee CCTV and alarm systems
• Manage guarding services and contracts
• Respond to incidents and measure performance

Target audience

This course is suitable for:
• Security managers and supervisors
• Facility managers
• Corporate security staff
• Risk managers
• Property managers

Course content

Target competencies

Participants will develop competencies in:

- Security strategy
- Layered protection
- Systems oversight
- Contract management
- Incident response

Course outline
