Course content

Why attend

Search is changing as AI-powered engines and assistants generate answers rather than lists of links. This course covers classic search engine optimisation alongside generative engine optimisation, including technical SEO, content and structured data, authority and trust signals, AI visibility, local search and measurement.

Visibility in both search results and AI-generated answers is now essential for attracting customers. This course gives you practical techniques to improve both.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course uses website audits, keyword and content exercises, structured data labs and AI visibility testing.

Course objectives

By the end of this course, participants will be able to:
• Explain how search engines and AI answer engines work
• Conduct technical SEO audits
• Research keywords and user intent
• Create content optimised for search and AI answers
• Implement structured data and trust signals
• Measure search and AI visibility

Target audience

This course is suitable for:
• Digital marketers
• Content managers
• Web managers
• Business owners
• Communications professionals

Course content

Target competencies

Participants will develop competencies in:

- Technical SEO
- Keyword research
- Content optimisation
- Structured data
- AI visibility
- Search analytics

Course outline
