Why attend

Planned shutdowns and turnarounds are among the most intense and costly events in process plants. This course covers turnaround management: scope definition and freeze, planning and scheduling, contractor management, materials, safety, execution control, start-up and post-turnaround review.

Turnaround overruns cost millions in lost production. You will learn proven methods to deliver turnarounds safely, on time and on budget.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Turnaround case studies, scope challenge exercises, scheduling workshops and execution simulations.

Course objectives

By the end of this course, participants will be able to:
• Explain the turnaround life cycle
• Define and freeze turnaround scope
• Plan and schedule turnaround work
• Manage contractors and materials
• Control safety and progress during execution
• Manage start-up and lessons learned

Target audience

This course is suitable for:
• Turnaround and shutdown managers
• Maintenance managers
• Planners and schedulers
• Operations managers
• Contractor supervisors

Course content
