Course content

Why attend

Product and service quality depends heavily on suppliers. This course covers supplier quality requirements, supplier selection and qualification, audits, incoming inspection, performance monitoring, non-conformance management, supplier development and collaboration with procurement.

Supplier quality problems cause defects, delays and recalls. This course helps you build a robust supplier quality system.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

The course uses case studies, audit planning exercises, scorecard workshops and corrective action scenarios.

Course objectives

By the end of this course, participants will be able to:
• Define supplier quality requirements
• Qualify and approve suppliers
• Plan and conduct supplier audits
• Monitor supplier quality performance
• Manage non-conformances and corrective actions
• Develop suppliers' quality capability
