Why attend

Cargo theft, tampering and smuggling threaten supply chains and can lead to severe penalties. This course covers supply chain security: threat assessment, secure facilities and transport, seals and tamper evidence, personnel security, partner requirements, security programmes such as AEO and C-TPAT, and incident response.

Secure supply chains protect goods, customers and reputation. You will learn practical controls along the logistics chain.

Professional Problems This Course Is Designed to Solve

• Difficulty translating subject knowledge into practical workplace decisions.
• Inconsistent approaches to the activities covered in the course outline.
• Lack of a structured plan for applying and reviewing new skills.

Course methodology

Threat mapping, security audit exercises, case studies of cargo crime and programme planning.

Course objectives

By the end of this course, participants will be able to:
• Assess supply chain security threats
• Secure facilities, transport and cargo
• Use seals and tamper-evident controls
• Apply personnel and partner security requirements
• Understand trusted trader programmes
• Respond to security incidents
