Why attend

Transport is often the largest logistics cost and a major safety responsibility. This course covers transport and fleet management: route planning, vehicle selection, fleet ownership models, fuel and cost management, driver management and safety, telematics, regulatory compliance and performance reporting.

Well-managed fleets reduce cost, emissions and accidents. You will learn practical tools to run a safer and more efficient fleet.

Professional Problems This Course Is Designed to Solve

- Difficulty translating subject knowledge into practical workplace decisions.
- Inconsistent approaches to the activities covered in the course outline.
- Lack of a structured plan for applying and reviewing new skills.

Course methodology

Cost modelling exercises, route planning practice, telematics demonstrations and case studies.

Course objectives

By the end of this course, participants will be able to:

- Plan routes and loads efficiently
- Select vehicles and ownership models
- Analyse and control fleet costs
- Manage drivers and road safety
- Use telematics and fleet systems
- Ensure regulatory compliance

Target audience

This course is suitable for:

- Fleet and transport managers
